ATAR & STUDY PATHWAYS

**The Queensland College of Music
is offering the opportunity for
Secondary Schools in QLD to partner
with the college so that students
can complete accredited music courses
during their senior years.**

This program is an excellent pathway for students who are interested in study in the music industry at a tertiary level.

The qualification currently provides eight credit points to the Queensland Certificate of Education (until end of 2018).

From 2019, the OP score will be no more with the implementation of the Australian Tertiary Admission Rank (ATAR).

Students will be able to choose four Authority subjects, plus one vocational education and training qualification at Certificate III or above.

The new systems will commence for students who enter Year 11 in 2019.

Now is the time to start implementing the program by partnering with QCM so you can offer Certificate III in Music Industry to your Grade 10 students.

Students will:

- Complete a Certificate III or Certificate IV in Music Industry while still at school.
- Possibility to continue to Diploma of Music Industry if the student meets the entry requirements.
- Gain credits for university studies.
- Gain a head start on a career in music and fast track into the industry
- Access help and advice from our industry professional teachers
- Build practical skills that will assist them to meet goals sooner
- Gain valuable credit points towards the Queensland Certificate of Education (QCE) (2017 - 2018)
- Use the Certificate III as one of the required subjects for ATAR (2019 onward).
